

OAKVILLE ART SOCIETY

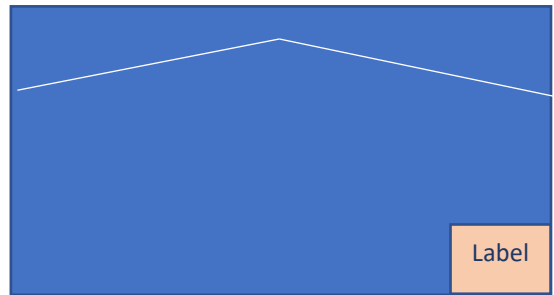

Label and Wire Requirements for Exhibitions

Each exhibiting artwork should have **TWO (2) labels attached**. The labels are on the Submission Form. One label is to be attached on the front and one firmly attached on the back per the diagrams below. The front label should be secured with tape for easy removal.

FRONT

BACK

All 2D art must have a wire or other hanging hardware attached to the back. Artwork submitted with no wire or with other hanging hardware will NOT be accepted.

The tightened wire should not appear above the top of the artwork. A rule of thumb is to have the top of the tightened wire no more than 1" below the top of the frame for small works and 3" below the top of the frame for larger works. Rings and screws should be no lower than 6" from the top of the frame (see below).

Please wrap any sharp edges of the wire with tape as a courtesy to those hanging your art.
