

My preferred water colour tubes are listed below. I have listed the colours, not the brand. Different brands have varying names for colours. As close as possible to the listed colours would be fine.

DaVinci has good medium grade water colour tubes. Reeves and Winsor and Newton are well established brands.

Please bring whatever you have as well.

Alizarin crimson

Cadmium or Hansa yellow

Magenta and/or any colour of red

Burnt sienna

Ultramarine blue

Yellow ochre

Teal

or turquoise
